

Secure a Kat™ supply affordable, individual purpose built cat enclosures. Our cat runs and cat enclosures are installed any size and shape, freestanding or attached to the side of your house, balcony, pergola, part or complete yard, gardens.

Secure A Kat™ enclosures are designed and built from UV Stabilized, 20mm Polyethylene netting secured with Stainless Steel fittings and Wire. **SecureaKat™** netting is autoclaved under tension to maximize knot stability and eliminate sag whilst it also contains the highest UV inhibitors possible without degrading the strength of the net. 10mm snake deterrent netting is also available.

R.S.P.C.A. recommended **SecureaKat™** installs across Australia. **Secure A Kat™** is a division of Advanced Nets and Ropes - Australia's leading netting company, so you can rest assured that **Secure A Kat™** netting and installations are of the highest standard and are safe for you and your cat whilst remaining strong and secure. Proudly Australian owned and operated, **SecureaKat™** staff are qualified net makers with over 35 years experience. **SecureaKat™** is not a franchise and we do not subcontract.
